## Programmer, Game-Developer

jasont@papabrickolini.dev - @PapaBeefolini

I'm a 25 year old programmer with almost a decade of experience in the games industry.

With a broad skill set in game development, I have experience programming, 3D modeling, animating, networking, UI creation & more.

### Programming Languages

C#, GDScript, Javascript, Lua, Python, TypeScript, GML.

I'm versatile, and can learn other programming languages quickly.

### Technologies

Unity, Godot, Unreal Engine (4+5), Source, Source 2, Blender, Photoshop, GIMP, Inkscape, Various VCS and more.

### Experience

#### **The Mirror Megaverse Inc** - *Senior Software Engineer*

April 2022 - PRESENT

- Took the lead of adding virtual reality support, interactable items, weapons & world building systems.
- Managed & coordinated with a sub-team of engineers to implement various features & systems.
- Created & implemented player character animations & actions.
- Authoring and implementing UI/UX for The Mirror.

#### **Indie Game Developer**

2014 - PRESENT

- Worked on a diverse array of projects, spanning various platforms, genres, and art styles, which has allowed me to continuously broaden my expertise and capabilities.
